Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ On October 5, 2026, Skyworks Solutions, Inc. ("Skyworks") completed its combination with Qorvo, Inc. ("Qorvo") under the Agreement and Plan of Merger dated October 27, 2025, among Skyworks, Qorvo and two wholly owned subsidiaries of Skyworks ("Merger Sub I" and "Merger Sub II"). Specifically, Merger Sub I merged with and into Qorvo, with Qorvo surviving as a wholly owned subsidiary of Skyworks (the "First Merger" and the effective time of the First Merger, the "Effective Time"). Immediately afterwards, as part of the same plan, Qorvo merged with and into Merger Sub II, with Merger Sub II surviving and renamed Qorvo Technologies, LLC (the "Second Merger" and, together with the First Merger, the "Mergers"). In the First Merger, each share of Qorvo common stock issued and outstanding immediately before the Effective Time (other than certain excluded shares) was converted into the right to receive (i) 0.960 shares of Skyworks common stock and (ii) $32.50 in cash, without interest (together, the "Merger Consideration"). No fractional shares of Skyworks common stock were issued; shareholders who would otherwise have been entitled to a fractional share became entitled to receive cash in lieu of that fractional share.
(Continued on attached statement.)

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ In general, a Qorvo shareholder's aggregate tax basis in the Skyworks common stock received in the First Merger (including any fractional share deemed received and exchanged for cash) equals the shareholder's aggregate adjusted tax basis in the Qorvo common stock surrendered, decreased by the cash received (other than cash received in lieu of a fractional share) and increased by the gain recognized on the exchange (other than gain recognized on cash received in lieu of a fractional share). Because the result depends on each shareholder's own basis in the Qorvo shares surrendered, it cannot be stated as a single per-share adjustment. The computation and inputs are set out in item 16.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ Gain recognized. In general, a Qorvo shareholder recognizes gain, but not loss, equal to the lesser of (i) the amount by which the sum of the cash received (excluding cash in lieu of a fractional share) and the fair market value of the Skyworks common stock received (including any fractional share) exceeds the shareholder's adjusted tax basis in the Qorvo common stock surrendered, and (ii) the cash received (excluding cash in lieu of a fractional share). A shareholder who acquired Qorvo shares at different times or prices must make this computation separately for each block of shares.

Basis of Skyworks shares received. For each block, the basis of the Skyworks shares received generally equals the basis of the Qorvo shares surrendered, minus the cash received (excluding cash in lieu of a fractional share), plus the gain recognized. The holding period of the Skyworks shares includes the holding period of the Qorvo shares surrendered, provided those shares were held as capital assets.

Cash in lieu of a fractional share. A shareholder is treated as having received the fractional share in the Merger and then as having received cash in redemption of it. Gain or loss equals the cash received less the basis allocated to the fractional share.
(Continued on attached statement.)

Part II Organizational Action *(continued)*

17 List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based ▶ Sections 354, 356, 358, 368(a),1001, and 1223(1) of the Internal Revenue Code.

18 Can any resulting loss be recognized? ▶ No. A U.S. shareholder may not recognize a loss on the exchange of Qorvo common stock for the Merger Consideration, except for a loss recognized on cash received in lieu of a fractional share of Skyworks common stock.

19 Provide any other information necessary to implement the adjustment, such as the reportable tax year ▶ The organizational action is reportable for the U.S. shareholder's taxable year that includes October 5, 2026 (calendar year 2026 for calendar-year shareholders). The information in this form is a general summary, does not address shareholders subject to special rules, and is not tax advice. Shareholders should consult their own tax advisors.

Skyworks and Qorvo stock merger (date of action October 5, 2026)

Part I, item 3 - Name of contact (complete)
Rajvindra Gill, Vice President, Investor Relations

Part I, item 9 - Classification and description (complete)
Common stock of Skyworks Solutions, Inc. issued to former shareholders of common stock of Qorvo, Inc. in exchange for their Qorvo, Inc. common stock.

Part I, item 10 - CUSIP numbers (complete)
Skyworks common stock 83088M102; Qorvo, Inc. common stock (surrendered) 74736K101

Part I, item 12 - Ticker symbol (complete)
SWKS (Nasdaq); QRVO (Nasdaq, delisted October 5, 2026)

Part II, item 14 (continued)
The Mergers, taken together, are intended to qualify as a reorganization within the meaning of section 368(a) of the Internal Revenue Code. The remainder of this form assumes that treatment.

Part II, item 16 (continued)
Fair market value. Exchange ratio: 0.960 shares of Skyworks common stock per Qorvo share. Cash: $32.50 per Qorvo share. Fair market value of Skyworks common stock: $85.67 per share, the volume-weighted average price of Skyworks common stock on Nasdaq over the five consecutive trading days from September 28 through October 2, 2026, the last trading day before the October 5, 2026 closing date (the Skyworks measurement price). Implied value of the Merger Consideration per Qorvo share: $114.74, being 0.960 x $85.67 = $82.24 of Skyworks common stock plus $32.50 in cash (about 71.68 percent stock and 28.32 percent cash by value). Fair market value may also be determined in other reasonable ways, for example by reference to the closing price on October 5, 2026. U.S. federal income tax law does not specifically prescribe how fair market value of the Skyworks common stock should be measured for this purpose. Shareholders should consult their own tax advisors to determine what measure of fair market value is appropriate and regarding basis allocation calculations.
